EXPERIENCE

FEBRUARY 2023 – PRESENT

SR. WEB DEVELOPER, PALM INFOTECH

- Provided front end as well as back end development.
- ➢ **Projects :-**

HitlChat :-
   Description: - Hitlchat – WhatsApp Handoff Integration for Botpress
   Developed a seamless human handoff system for Botpress-powered WhatsApp chatbots. Enabled real-time chat transfer from bots to human agents via WhatsApp Cloud API. Key features include mobile and desktop support, WhatsApp Business API integration, role-based agent assignment, and easy setup without coding. Built to enhance customer engagement and agent efficiency for businesses of all sizes.

Games on point:
   Description: - Developed a digital platform that enables club coaches and members across all team sports to confidentially submit their top three player votes, with results securely stored until the end of the season.

   Replaced traditional paper-based voting with an eco-friendly and cost-effective solution, contributing to both sustainability and budget efficiency.

   Implemented seamless in-app voting for coaches and secure external links for members, ensuring a fair, inclusive, and user-friendly experience for all participants.

   Designed to support a wide range of sports, including netball, football, and others, the platform helps clubs easily recognize their best and fairest players

AGD Bank (Asia Green Development Bank) :-
   Description: - AGD Bank makes banking in Myanmar secure and easy. Discover our personal, corporate, mobile and e-banking services. AGD Bank - the bank that grows with you.
